

## **Attention Tennis and Pickleball Players**

Due to the increase in interest to play on our courts, we have moved our scheduling to the TeamReach app. You can find this app in the app store on your phone. It is a red square with 2 r's (back to back) forming a letter T. Once you download the app, you will need to enter our Group Code: PCPBCH

To schedule a court, please indicate if you will be playing tennis or pickleball. The start time for tennis is 8:00am and for pickleball it is 9:00am, no earlier due to noise issues. If you want to play with a set group of friends or family you will need to request a reservation and give a start time. ALL Reservations must be booked AFTER 6pm the night before you play. Reservations will be assigned according to a first come first serve basis. If your preferred time is already booked when you go on the app you will need to pick another time. Please leave 1 1/2 hours between reservations. If you just want to reach out on the app and see if anyone is available to play at a certain time you can ask and then see who replies. After you gather the necessary players you can confirm the court you will be using and the time you all agreed to.

To type a message on the app you will need to click on the messages icon at the top and then type your message. If you want to reply to an existing message, you need to click on where it says "comment" at the bottom of that message. Try not to start a new message if you are replying to an existing message. Also, please indicate if you are scheduling a (Reservation-set players) or if you are looking for players to join you (Open Play). This will help players to know if they can join or not. During an open play scheduled match if more than 4 players come to play they are rotated in one at a time after the end of each game.

There is a pre-arranged open play time frame every night through Labor Day from 6:00 pm - 8:30pm. If you can play during that time frame you should go on the app and click on the calendar icon at the top. Click on the date that you want to play and click "YES" at the top. That will let others in our group know that you are available to play during open play for that night and perhaps encourage more to join you.

This is going to be a starting point with some guidelines that will hopefully keep our court play running smoothly. If you have any suggestions or ideas to improve upon these guidelines, you can directly message me or any of the leaders by clicking on the feather icon at the far right and send a message there. It will only go to the people in the group that you specify with a check mark next to their name.

Lisa Pratt

Tennis & Pickleball Chairman
